

## **MedReleaf Australia granted medicinal cannabis Manufacturing licence**

**MedReleaf Australia has secured the full suite of licences to participate in the Australian medicinal cannabis market after being granted a medicinal cannabis Manufacturing licence. This adds to the Company's Import, Wholesale and Cultivation licences which have already been obtained from the Federal Government's Office of Drug Control (ODC).**

The privately owned Australian joint venture company is associated with one of Canada's leading licenced producers of medical cannabis, MedReleaf Corp, which has a market capitalisation of over CAD \$2 billion, has started taking orders from Australian pharmacies and hospitals.

The company will import medicinal cannabis from MedReleaf Corp. while constructing its own South-East Queensland in indoor growing and manufacturing facility.

**When fully operational, MedReleaf anticipates it will be able to grow and produce more than 20 tonnes of medicinal cannabis per annum.**

MedReleaf Australia will offer General Practitioners, Specialists and Pharmacists a medicinal cannabis educational program that will also serve to build confidence in the company's specific formulations.
